REPAIR DETAILS

What is the fault?

Is This occurring always, or is the fault intermittent?

Does your unit have a security code?

Have you been quoted, or would you like a quote?

If quoted, how much did we quote you?

Our preferred method of payment is credit card. All credit card payments incur a 1% surcharge. This includes Visa debit and Mastercard debit. Sorry, we do not accept AMEX, as their surcharges are too high.

If you don't like paying surcharges, we will happily supply you with our bank details for EFT transfer. This may take a little longer for funds to clear before we can send back your repair.

Our minimum charge for diagnosis with no repair or any rejected quotes is \$140. This includes packaging and return freight.
